

RIM PRODUCTION LINE

The Wheel Production Line is an advanced manufacturing line used in the production process of steel wheels. This line encompasses all production stages, from the receipt of raw materials to the final shaping and quality control of the wheels. Equipped with high-tech machines and automatic control systems, this production line ensures high efficiency and product quality. It offers flexibility for various wheel sizes and designs while minimizing operator intervention.

Features

- **Fully Automated Production:** The production line is equipped with fully automated machines and control systems, minimizing human intervention and reducing production time.
- **Multiple Wheel Sizes and Designs:** Offers flexibility for different wheel sizes and designs, allowing for a wide range of products.
- **High Precision:** Ensures high-precision manufacturing, reducing material waste and enhancing product quality.
- **Durable Construction:** All machines in the production line are made from high-durability materials and are long-lasting.
- **User-Friendly Interface:** Provides an intuitive and user-friendly interface for operators to easily manage the machines.
- **Quick Changeover Time:** Allows for quick and easy changeover between different wheel types, increasing the efficiency of the production line.

Benefits

- **Increased Production Efficiency:** Fully automated systems shorten production time and increase productivity.
- **High Product Quality:** Achieves high-quality products through precise manufacturing and continuous quality control.
- **Flexibility:** Quickly responds to customer demands by producing various wheel sizes and designs.
- **Cost Savings:** Reduces labor and production costs through automated systems and high efficiency.
- **Long-Lasting Use:** Durable construction ensures long-term use and reduces maintenance costs.
- **Safety:** Advanced safety features ensure operator safety and prevent workplace accidents.

No.	Specifications	Forklift	Agricultural	Agricultural and Truck	Agricultural and Heavy Vehicle
1	Rim diameter range (inch)	8 to 15	12 to 20	15 to 24	20 to 58
2	Rim band width (inch)	3 to 10	4 to 16	4 to 16	6 to 36
3	Capacity (Rim to Rim - sec.)	30	45	60	120

ABOUT İHSAŞ

ESTABLISHED IN 2018 IN İZMİR/TURKEY WITH STRONG ENGINEERING/DESIGN CAPABILITIES IN ORDER TO CARRY ON A BUSINESS IN WHEEL MANUFACTURING LINES AND AVIATION INDUSTRY.

İHSAŞ MEETS THE REQUIREMENTS OF MANUFACTURERS IN THE WHEEL MANUFACTURING INDUSTRY WITHOUT ANY COMPROMISE IN PARALLEL WITH ISO9001:2008.

IN ADDITION TOO BUILDING WHEEL MANUFACTURING LINES, İHSAŞ IS ABLE TO PRODUCE ALL MOLD APPARATUS AND INTERMEDIATE MACHINERY FOR PROCESSES ACCORDING TO NEED.

İHSAŞ ESTABLISHES LONG-TERM RELATIONSHIPS WITH CUSTOMERS AND CUSTOMER SATISFUCTION IS AT THE FOREFRONT.

OUR VISION

TO CREATE AN UNRIVALED BRAND FOR TURKEY AND MOREOVER, GROWING WITH DETERMINED STEPS AS GLOBALLY.

OUR MISSION

TO BE A PREFERRED SUPPLIER FOR CUSTOMERS.

TO CREATE A PERMAMENT COOPERATION IN EXIST.
